Mahatma Gandhi:
Savior for Indians

Gandhi was shy and small,
But he stood up very tall.
He was a very calm lad
That got the redcoats mad.

He didn't fight or walk away
Instead, he made the British pay.
When they treated the Indians badly
Gandhi and the Indians protested loudly.

He led the Indians in a march to be free,
He broke British laws, grasping salt from the sea.
He inspired his people to fight back creatively
Thousands more Indians picked up salt like Gandhi.

Gandhi taught us to fight peacefully,
Even when justice doesn't come easily.
When people begin to fight,
We should enlighten them about what is right.
