Amelia Earhart

Amelia Earhart loved adventures.
She didn't like to play with dolls.
She was determined; she never quit.
She was brave and confident.

Amelia broke many records,
Flying her plane through the air.
She changed the women's altitude record,
Then, flew higher than any woman or man had dared.

Amelia showed us to never give up.
She said gender shouldn't stop you
Work hard, and you will find it.
There's nothing you can't do.

Amelia taught people to put effort
In everything they do.
Whether you are a boy or a girl,
No idea is implausible
Put your mind to something
It can be possible!
