Leonardo da Vinci

Leonardo inspired the world.
He was an incredibly imaginative thinker.
Each idea was a breakthrough
His art defined what we could do.

Leonardo was a super genius.
He dared to do the unknown.

He mastered the use of light and shadow in painting.
He inspired children to be creative.
He gently grazed a canvas.
His art would live on
Every new person fell in awe.

He taught with curiosity
Every idea can change the world
Doing what you love makes it special
With those ideas, he lives on in our minds
Long past the day he died.
