Helen Keller

Helen Keller, full of determination
A sickness took her sight and hearing
For a while, she couldn't speak
But never gave up.

Providing promise to people's ambitions,
She showed how anything can be achieved,
She gave people with disabilities a reality.
Helen spoke for those who couldn't.

She gave opportunities to those who were overlooked,
Wrote books and proved society wrong.
She changed humanity forever,
Inspired people with big dreams.
Helen made the impossible possible.

Helen taught us:
You can reach any goal
With determination.
Life is hard:
You must dig deep.
